Incident Details

Someone by the name of Mohamed Mohamed purchased two Sony FX3's from us on June 30th. He used two different cards which he did not physically have. They were on his phone, and manually entered in our card processing system by our employee. On July 7th, we got a disputed charge for one of the cards he used. The card holder also called us to let us know they disputed the charge and gave us their information. We tried to call the number we had for Mohamed, and it was an automated message saying "thanks for calling banner health, this number in not currently in service". We assume the name and address he provided are also fake. We have not gotten a dispute or any information on the second card holder who's card was used. Once we notified another local camera store, they noted that they "chased him out of the store" prior coming to Tempe Camera. We have filed a police report.
